

New Source Review newspaper advertisements for construction permit applications, September 7, 2006. The following public notices have been published in the newspapers listed below each advertisement. These newspaper advertisements for construction permit applications were published on one of the following dates: September 5, September 6, or September 7, 2006. Public notices are generally published every two weeks. The previous publication of public notices was August 22 – 24, 2006.

### PUBLIC NOTICE

The Tennessee Division of Air Pollution Control (TDAPC) has received requests for construction and/or modification of air contaminant sources as noted below. The proposed construction and/or modification is subject to part 1200-3-9-.01(1)(h) of the Tennessee Air Pollution Control Regulations, which requires a public notification and 30-day public comment period. Interested parties may express their comments and concerns in writing to Mr. Barry R. Stephens, Director, Division of Air Pollution Control, 9<sup>th</sup> Floor, L & C Annex, 401 Church Street, Nashville, Tennessee 37243-1531 within thirty (30) days of the date of this notice. Questions concerning a source may be addressed to the assigned Division personnel at the same address or by calling 615-532-0554.

Individuals with disabilities who wish to participate should contact the Tennessee Department of Environment and Conservation to discuss any auxiliary aids or services needed to facilitate such participation. Such contact may be in person, by writing, telephone, or other means, and should be made no less than ten days prior to the end of the public comment period to allow time to provide such aid or services. Contact the Tennessee Department of Environment and Conservation ADA Coordinator, 12th Floor, 401 Church Street, Nashville, TN 37243, 1-866-253-5827. Hearing impaired callers may use the Tennessee Relay Service, 1-(800)-848-0298.

The applicant is DTR Tennessee, Inc. Tazewell with a mailing address of 150 Hester Lane, Tazewell, TN 37879. They seek to obtain an air contaminant permit (Division identification number: 13-0083-22/60210) for construction of an Adhesive Coating Operation at the same address. This proposed operation would consist of adhesive coating application via a hand spraying system with a forced-air steam-drying chamber. A regenerative thermal oxidizer would be used for pollution control. There would be physical construction. Regulated air contaminants would be emitted by this source. Mr. Steven R. Simpson is the assigned Division person.

For the Claiborne County “Claiborne Progress”--published once on or before Thursday, September 7, 2006.

---

The applicant is Erby Contractors, Inc. with a mailing address of P. O. Box 701, Newport, TN 37822. They seek to obtain an air contaminant permit (Division identification number: 15-0089-01/60240) for construction of a Concrete Batch Plant at 744 Lower Quarry Road, Newport, TN 37821. This proposed operation would consist of a concrete batch plant, silos, and associated equipment used to produce concrete ready mix. A baghouse would be used for pollution control. There would be physical construction. Regulated air contaminants would be emitted by this source. Mr. J. D. Martin is the assigned Division person.

For the Cocke County “Newport Plain Talk”--published once on or before Thursday, September 7, 2006.

---

The applicant is Mastertaste, Inc., dba Hickory Specialties, Inc. with a mailing address of 13797 Highway 70 North, Monterey, TN 38574. They seek to obtain an air contaminant permit (Division identification number: 18-0028-04/60188) for modification of a Food Flavoring Production Operation located at the same address. This existing

operation consists of three calciners, a sawdust dryer, a wood tar vacuum evaporator, a super smoke process, and associated equipment used to produce food flavoring products. Two afterburners and a cyclone are used for pollution control. The requested modification is to add dry sawdust and No. 2 fuel oil as fuels for the sawdust dryer. There would be no physical construction. Regulated air contaminants emitted by this source would increase. Mr. M. Reynolds is the assigned Division person.

For the Cumberland County "Crossville Chronicle"--published once on or before Thursday, September 7, 2006.

The applicant is Colonial Chemical, Inc. with a mailing address of 225 Colonial Drive, South Pittsburg, TN 37380. They seek to obtain air contaminant permits for emission sources located at the same address, as follows:

(1) Mixing Operation (Division identification number: 58-0108-01/60247). This existing operation consists of three (3) mixing tanks and associated equipment used to mix chemicals. Because of the amount and type of emissions, the use of pollution control equipment is not proposed. There would be no physical construction. Regulated air contaminants are emitted by this source.

(2) Boiler (Division identification number: 58-0108-02/60248). This existing operation consists of a boiler and associated equipment used to produce heat. Because of the amount and type of emissions, the use of pollution control equipment is not proposed. There would be no physical construction. Regulated air contaminants are emitted by this source.

(3) Hot Oil Burner (Division identification number: 58-0108-03/60249). This existing operation consists of a hot oil burner and associated equipment used to produce heat. Because of the amount and type of emissions, the use of pollution control equipment is not proposed. There would be no physical construction. Regulated air contaminants are emitted by this source. Mr. M. Reynolds is the assigned Division person.

For the Marion County "Jasper Journal"--published once on or before Thursday, September 7, 2006.

The applicant is Barnett Dry Cleaners with a mailing address of 201 Mayes Avenue, Sweetwater, TN 37874. They seek to obtain an air contaminant permit (Division identification number: 62-0127-01/60262) for construction of a Dry Cleaning Operation at the same address. This proposed operation would consist of one (1) dry-to-dry perchloroethylene dry cleaning machine. A refrigerated condenser and carbon adsorber would be used for pollution control. There would be physical construction. Regulated air contaminants would be emitted by this source. Ms. J. Aslinger is the assigned Division person.

For the "Monroe County Advocate"--published once on or before Thursday, September 7, 2006.

The applicant is APAC – Tennessee, Inc. with a mailing address of P.O. Box 359, 226 Gill Street, Alcoa, TN 37701. They seek to obtain an air contaminant permit (Division identification number 89-0030-02/60241) for an Internal Combustion Diesel Generator located at 1953 Beersheba Highway, McMinnville, TN 37110. This existing operation consists of a single 817 horsepower diesel generator set. This generator provides power to an existing asphalt plant operation. Because of the amount and type of emissions, the use of air pollution control equipment is not proposed. There would be no physical construction. Regulated air contaminants are emitted by this source. Mr. W. Medley is the assigned Division person.

For the Warren County "Southern Standard"--published once on or before Thursday, September 7, 2006.

The applicant is Hassell & Hughes Lumber Company, Inc. with a mailing address of P.O. Box 68, Collinwood, TN 38450. They seek to obtain an air contaminant permit (Division identification number: 91-0011-21/60254) for modification of a Woodworking Operation located on Highway 13 South, Collinwood, TN 38450. This existing operation consists of gang re-saws, single planers, double planers, molders, sanders, and other equipment used to produce tongue and groove flooring. Cyclones and a baghouse are used for pollution control. The requested modification is for the addition of wood pellet processing machinery. There would be physical construction. Regulated air contaminants are emitted by this source. Mr. J. Fuss is the assigned Division person.

For the "Wayne County News"--published once on or before Thursday, September 7, 2006.
